

BANGALORE MICROSCOPY COURSE 2012

23-30th
September

The IVth Bangalore Microscopy Course will be organized at the National Centre for Biological Sciences (NCBS), Bangalore, India. Taught by world leaders in biological microscopy, this course provides didactic and hands-on training in state-of-the-art optical microscopy techniques.

Eligibility

This course is primarily intended for senior graduate level students and post-doctoral researchers, although exceptions can be made for junior faculty and talented under-graduates.

Invited Faculty

Jan Ellenberg, European Molecular Biological Laboratory, Germany
Sudipta Maiti, Tata Institute of Fundamental Research, India
Satyajit Mayor, National Centre for Biological Sciences, India
Nico Stuurman, University of California San Francisco, USA
Roop Malik, Tata Institute of Fundamental Research, India
Kurt Thorn, University of California San Francisco, USA
Mike Davidson, University of Florida, USA
Jason Swedlow, University of Dundee, UK
Steve Ross, Nikon Inc., USA

Support and Attendance

Andor, Carl Zeiss, Coherent, DSS Imagetech, GE Healthcare, Hamamatsu,
Icon Analytical, JH BIO, Laser Spectra Service, Laser Science*, Leica,
MEL55*, Nikon, Olympus, Perkin Elmer, Photometrics, Strand Life Sciences,
TILL Photonics

*To be confirmed

Application Deadline- 30th May 2012
Selection Announcement- 15th June 2012
