Senior Scientist for Pollution Monitoring Laboratory

The Centre for Science and Environment, an established institution known for its rigorous and scientific policy research and advocacy on environmental issues is looking for a Senior Scientist for its state of the art laboratory for monitoring pollution and toxins.

We need a Senior Scientist who is highly skilled, qualified but also committed to using science for policy change. The job profile includes an ability to independently perform and direct a wide range of laboratory analysis, troubleshoot analytical problems and evaluate results. Applicants must be well-versed in handling sophisticated analytical equipments such as LC-MS, GC-MS, HPLC, GC, AAS etc. Prior experience in disseminating research results in the public domain will be an advantage.

Candidates with PhD./M. Tech./M.Phil in analytical/organic/inorganic chemistry/Chemical Technology, with a minimum of seven years hands-on experience in planning and executing laboratory research projects.

Salary will be commensurate with qualifications and experience.

Please mention the post applied for in the subject line and email your applications to jgupta@cseindia.org

Or Post it to:
