Dated 08-02-2016

Do you have an excellent academic track record and a dream to be part of the frontline space science research being done in the country? This is a call for you!

Applications are invited for RESEARCH ASSOCIATE (RA) position tenable at one of the premier research institutions in India, the Space Science Laboratory (SPL) of Vikram Sarabhai Space Centre (VSSC), Thiruvananthapuram. VSSC is one of the lead Centres of the Indian Space Research Organisation (ISRO). The research centre is situated in the southern state of Kerala and is home to some of the most advanced research facilities in the country.

The centre is involved in various research programmes related to atmospheric, space and planetary sciences. The centre is also involved in the development of various space science missions, including the Chandrayaan, Mars Mission, and several others.

The centre is looking for candidates with a strong background in the field of space science, particularly in areas such as atmospheric science, space weather, and planetary science. The successful candidate will be expected to carry out research projects, contribute to the development of new technologies, and work closely with other researchers and engineers.

The centre offers a competitive salary package and a range of benefits, including health insurance, retirement plans, and professional development opportunities. The centre is also committed to promoting diversity and inclusion in its workforce.

The closing date for applications is February 28, 2016. Interested candidates are encouraged to apply online through the centre's website.

If you are interested in this opportunity, please visit the centre's website for more information and to apply online.
