Date: 29 June 2016

Visiting Fellowships Programme 2016–17

Scope: To foster collaborations with the Centre's faculty and to provide research opportunities, the Centre offers Visiting Fellowships to research scientists working in educational institutions and R&D laboratories in India. Visiting fellows are associated with faculty of the Centre, and the research work is carried out at the host institution.

Research areas: *Life Sciences* (including molecular and developmental biology, chronobiology, genetics, ecology, behaviour, neurobiology); *Materials Sciences* (including nanoscience); *Chemical Sciences* (including chemical biology, interfaces of chemical science with materials, solid-state chemistry, theoretical/computational chemistry, inorganic, physical and organic chemistry); *Physical Sciences* (including experimental and theoretical condensed-matter and materials physics, statistical physics, organic electronics and experimental nanobiotechnology); *Engineering Sciences* (including fluid dynamics, nonlinear dynamics, and thermal and chemical engineering) and *Atmospheric Sciences*.

Duration and fellowship: The fellowship is tenable for a minimum uninterrupted period of sixty days and maximum of 3 months and valid for one year from the date of the offer letter. The timing of the visit may be decided according to mutual convenience. The fellowship carries an honorarium of Rs 25,000 per month.

Eligibility: Research scientists or engineers with a Ph.D., who have permanent positions in educational institutions or R&D laboratories are invited to apply. Individuals who have applied for or utilized this Visiting Fellowship Programme earlier, need not apply.

Application procedure: Application form may be downloaded from <http://www.jncasr.ac.in/fe>. Completed application must include a certificate from the Head of the candidate's parent institute permitting continuous leave for the duration of the fellowship. The completed application and supporting documents should be sent as a single PDF file by e-mail to fellowships@jncasr.ac.in and also in hard copy by post to **The Academic Coordinator**, JNCASR, Jakkur, Bengaluru 560 064. E-mail subject line and envelope containing hard copy should be clearly marked 'Application for Visiting Fellowship Programme 2016–2017'. Incomplete applications will be rejected and no further correspondence will be entertained in this regard.

Important dates: Last date for receipt of completed application form: **29 August 2016**.

The awardees will be notified by **30 September 2016**.

Workshop on Writing Science

3–15 October 2016

IISER Thiruvananthapuram

Catalysed by Vigyan Prasar and organized by IISER Thiruvananthapuram

Eligibility: Postgraduates in any branch of science, as well as to postgraduates in Mass Communication/Journalism, aspiring to contribute scientific content to print media in English and other languages of India.

Minimum requirements for participation: Ability to understand and speak English, the language of the workshop. Demonstrable ability to write in any Indian language would be an advantage.

The workshop will have lectures, presentations, discussions, role-play, demonstrations, hands-on practice, feedback, mentoring and highly interactive sessions. The focus will be on work done as individuals and in teams. Maximum number of participants for the workshop is limited to 14. The workshop is compulsorily residential. Boarding and lodging free for selected candidates. Re-imburement of the cost of travel by 2nd AC train fare only for deserving candidates. No registration fee.

Last date for receipt of application: **29 August 2016**.
