

**National Conference
Malaria Parasite Biology:
Drug Designing & Vaccine Development
9 and 10 September 2016
Venue: Nirma University**

There is an inevitable need to converge the research ideas of scientists working at addressing this insurmountable issue of malaria drug discovery and vaccine initiative. The individual efforts have been made to advance the understanding of malaria in the direction of developing diagnostic and therapeutic interventions. However, consorted and cocktail approach with the scientific conglomeration is indeed required to gain in-depth understanding of this parasite. Therefore, Institute of Science, Nirma University intends to bring Indian malaria community onto a common platform to foresee a plausible solution to eradicate human malaria parasite.

Prof. G. Padmanaban, Former Director, IISc is mentoring this meeting, and eminent malaria biologists from the research institutes and universities all across nation including ICGB, NII, JNCASR, TIFR, ILS, IICB, CCMB, IISER, IISc, JNU, UoH and KIIT will deliver talk and share their experiences.

The conference is supported by various funding agencies including DST-SERB, DBT, ICMR-New Delhi, and GUJCOST (DST, Govt of Gujarat), Gandhinagar.

Important Dates

Registration deadline	:	1 September 2016
Abstract submission deadline	:	25 August 2016
Request for accommodation	:	20 August 2016

Instructions for registration, abstract submission and poster presentation

The registration form and instructions about abstract and poster preparation may be found at <http://www.nirmauni.ac.in/ISNU> with file malaria conference_registration form.

Convener: Prof. Sarat Dalai

Co-ordinators: Dr Rajeev Tyagi and Dr Pranati Sar

Organized by

Institute of Science, Nirma University

S.G. Highway, Ahmedabad 382 481
