

CURRENT SCIENCE

Volume 112 Number 1

10 January 2017

6 In this issue

GUEST EDITORIAL

- 7 For a science-based transformation of water policy**
Mihir Shah

CORRESPONDENCE

- 9 Geographical distribution of Shanti Swarup Bhatnagar Awardees**
Gangan Prathap
- 10 Need for reliability assessment of parent product before redesigning a new product**
Daniel O. Aikhuele and Faiz M. Turan
- 11 Is the herbicide glyphosate really safe?**
Vijay Paul and Rakesh Pandey

NEWS

- 14 Delhi Declaration on agrobiodiversity management**
- 15 Scientific advancements in independent India**
Sarita Ahlawat, Mahesh Rangarajan, L. S. Shashidhara and John Mathew
- 17 Electron microscopy**
N. K. Mukhopadhyay
- 20 Birds of different feathers flock together**
K. P. Madhu

OPINION

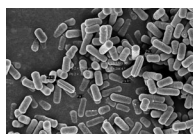

- 22 Groundwater management and achieving equity by direct transfer of electricity subsidy: a workable option**
Suresh Kumar, A. Raizada, H. Biswas, A. S. Morade, K. K. Reddy, W. Murlidhar and K. S. Rao

COMMENTARY

- 24 India lays the cornerstone of biodiversity access and benefit sharing system**
Parameswaran Prajeesh

SCIENTIFIC CORRESPONDENCE

- 29 Dark clouds of disaster over Uttarakhand and the silver lining**
R. K. Bhandari
- 30 Unique pollen reception in *Tephrosia purpurea* (Linn.) Pers., a tropical weed of family Papilionaceae**
Veena Kumari and Namrata Sharma
- 32 *Aeromonas caviae* CSB04, a causal organism of bacterial flacherie in muga silkworm (*Antheraea assamensis* Helfer)**
Sosanka Protim Sandilya, Palash Dutta, Pinky Moni Bhuyan, Rajal Debnath, Anupam Changmai, Kartik Neog and Dip Kumar Gogoi
-

GENERAL ARTICLES

- 35 **Oxidative potential of ambient aerosols: an Indian perspective**
Neeraj Rastogi and Anil Patel
- 40 **Impacts of traditional shore seine operation along the Tuticorin coast, Gulf of Mannar, southeast India**
K. Diraviya Raj, S. Monolisha and J. K. Patterson Edward

REVIEW ARTICLES

- 46 **Application of DInSAR in mine surface subsidence monitoring and prediction**
S. G. Ishwar and Dheeraj Kumar
- 52 **Conservation agriculture – a panacea to improve soil physical health**
A. K. Indoria, Ch. Srinivasa Rao, K. L. Sharma and K. Sammi Reddy

RESEARCH ARTICLES

- 62 **Evaluation of offshore wind power potential in the western coast of India: a preliminary study**
Garlapati Nagababu, Surendra Singh Kachhwaha, Vimal Savsani and Ranajit Banerjee
- 68 **Performance of the operational and experimental long-range forecasts for the 2015 southwest monsoon rainfall**
D. S. Pai, A. Suryachandra Rao, Soma Senroy, Maheswar Pradhan, Prasanth A. Pillai and M. Rajeevan
- 76 **FAO-CROPWAT model-based estimation of crop water need and appraisal of water resources for sustainable water resource management: Pilot study for Kollam district – humid tropical region of Kerala, India**
U. Surendran, C. M. Sushanth, George Mammen and E. J. Joseph
- 87 **Distribution and source identification of heavy metal concentration in Chilika Lake, Odisha India: an assessment over salinity gradient**
Satabdi Banerjee, Arnab Pramanik, Sanghamitra Sengupta, Dhruvajyoti Chattopadhyay and Maitree Bhattacharyya
- 95 **Micro-irrigation in rainfed pigeonpea – Upscaling productivity under Eastern Gangetic Plains with suitable land configuration, population management and supplementary fertigation at critical stages**
C. S. Praharaj, Ummed Singh, S. S. Singh and N. Kumar
- 108 **Impact of projected climate change on rice (*Oryza sativa* L.) yield using CERES-rice model in different agroclimatic zones of India**
P. K. Singh, K. K. Singh, S. C. Bhan, A. K. Baxla, Sompal Singh, L. S. Rathore and Akhilesh Gupta
- 116 **Temporal composition and distribution of benthic macroinvertebrates in wetlands**
Onkar Singh Braich and Rajwinder Kaur

RESEARCH COMMUNICATIONS

- 126 **Dynamic genetic algorithm-based feature selection and incomplete value imputation for microarray classification**
R. Devi Priya and R. Sivaraj
- 131 **Exposure to particulate matter in different regions along a road network, Jharia coalfield, Dhanbad, Jharkhand, India**
Shiv Kumar Yadav and Manish Kumar Jain
- 139 **Nature of suspended particles in hydrothermal plume at 3°40'N Carlsberg Ridge: a comparison with deep oceanic suspended matter**
Durbar Ray, E. V. S. S. K. Babu and L. Surya Prakash
