**Call for Project Scientist-level II/III in  
Earth Surface Studies**

Applications for a position of a Project Scientist are invited to work on a project funded by SERB-DST as a Year of Science chair Professorship to Prof. A. K. Singhvi. The project relates to the Quantification of Earth Surface Processes by conjunctive use of Cosmogenic Radioisotopes and Optically Stimulated Luminescence Dating. The selected candidate would be expected to work on the analysis and interpretation of cosmogenic radioisotope data on sediments and their modelling to understand the evolution of the landscapes. He will also participate in the relevant fieldwork and laboratory measurements.

The desired candidate must have a doctoral degree in Earth Sciences from a reputed institution and a proven record of experience/publications related to the measurement and analysis of cosmogenic radioisotope data and their modelling/interpretations.

The tenure of this position will be from **1 June 2023 to 31 March 2024**. The fellowship will be at level Project Scientist-II or III as per DST OM SR/S9/Z-05/2019, dated 10 July 2020, and the actual placement will depend on the experience.

Application with a CV and a statement on research experience/skills are to be sent by e-mail to [director@prl.res.in](mailto:director@prl.res.in) and Prof. A. K. Singhvi ([2aksprl11@gmail.com](mailto:2aksprl11@gmail.com)) by **20 May 2023**. Short-listed candidates will be interviewed online, and selected candidate will be expected to join within a month of a formal offer.
