

Science, Technology & Society

(An International Journal Devoted to the Developing World)

Editors:

V. V. Krishna, CSSP/SSS, Jawaharlal Nehru University, New Delhi.

Roland Waast, Institut de Recherché pour le Developpment, Paris.

Launched in 1996, it is the first truly international bi-annual journal published in March and September every year; and devoted to the developing world in this emerging interdisciplinary field of Science, Technology and Society Studies (STSS).

The relationship between science, technology and society is a complex one, particularly in developing countries. The study of this relationship through scholarly and multidisciplinary inquiry is necessary if we are to understand the ways in which advances in science and technology influence society, and vice versa.

Science, Technology and Society invites research articles and reports from scholars in natural and social sciences working in one of the STSS areas of sociology of science and technology, economics of technical change and innovation studies, social history of science, philosophy of science, science policy studies, gender relations in science and technology, development studies relating to science and technology issues, energy and environmental studies, R&D and technology management studies, quantitative studies in science and technology, etc.

Science, Technology and Society is a peer-reviewed journal which endeavours to combine a scholarly perspective with policy relevant issues drawn from the above fields.

Special Issues published so far:

- ★ Changing Trends in Science Policy – 1(2) 1996.
- ★ International Mobility of Brains in Science and Technology – 2(2) 1997.
- ★ Comparative Perspectives on Technological Learning – 3(1) 1998.
- ★ Special Symposium on Science, Technology and Society Studies towards the 21st century – 4(1) 1999.
- ★ Social History of Science – 4(2) 1999.

Authors should provide four hard copies of their research contribution. Articles must be typed in double space, on one side of the page only, with generous margins. Articles should be between 6000 and 8000 words. All contributions should be sent to the **Editorial Office, STS Journal C/o Dr. V. V. Krishna, Centre for Studies in Science Policy (Room No. 232), School of Social Sciences, Jawaharlal Nehru University, New Delhi 110 067.** For further information contact: vvk@jnuniv.ernet.in.
