

# **CURRENT SCIENCE**

## **Special Section: Seismology 2000**

(10 November 2000)

Guest Editor: Kusala Rajendran

### **Preface**

Kusala Rajendran

### **The recent Indian earthquakes**

Prantik Mandal, B. K. Rastogi and Harsh K. Gupta

### **Earthquake stress triggers, stress shadows, and seismic hazard**

Ruth A. Harris

### **Reappraisal of north-Indian earthquakes at the turn of the 20th century**

N. Ambraseys

### **The recent Indian nuclear tests – A seismic overview**

S. K. Sikka, G. J. Nair, Falguni Roy, Anil Kakodkar and R. Chidambaram

### **Recent developments toward earthquake risk reduction in India**

Anand S. Arya

### **The Parkfield, California, earthquake experiment: An update in 2000**

Evelyn Roeloffs

### **Site response estimation using strong motion network: A step towards microzonation of the Sikkim Himalaya**

Sankar Kumar Nath, Probal Sengupta, Saradindu Sengupta and Amitabha Chakrabarti

### **Seismogenic properties of the crust inferred from recent studies of reservoir-induced seismicity – Application to Koyna**

Pradeep Talwani

### **Impact of seismic tomography on earth sciences**

Dapeng Zhao and J. R. Kayal

### **Future trends in earthquake-resistant design of structures**

Durgesh C. Rai

### **Current and future trends in seismological investigations of the continental lithosphere**

Thomas J. Owens

### **Recent advances in seismic instrumentation and data interpretation in India**

S. N. Bhattacharya and R. S. Dattatrayam

### **A method for path calibration using regional and teleseismic broadband seismograms: Application to the 21 May 1997 Jabalpur earthquake $M_w$ 5.8**

Chandan K. Saikia

### **Geodetic contributions to the study of seismotectonics in India**

Roger Bilham and Vinod K. Gaur

### **Using geological data for earthquake studies: A perspective from peninsular India**

C. P. Rajendran

### **New ground motion data and concepts in seismic hazard analysis**

John G. Anderson, James N. Brune, Rasool AnooShehpoor and Shean-Der Ni
