Academy Initiative in University Science Education

Summer Research Fellowships for Students and Teachers – 2001

The Science Education Panel of the Academy offers several two-month Summer Fellowships to enable students/teachers to work with Fellows of the Academy during 2001. A list of Fellows who are willing to accept students/teachers for work on joint short-term projects is included as a supplement in the December 2000 issue of *RESONANCE – journal of science education*. This information is also available in the website of the Academy (www.ias.ac.in).

Proposals are invited from interested students and teachers for these Fellowships. The proposal should include a brief resume of the applicant (in the prescribed proforma), a one-page description of the planned activity, the Fellow with whom the applicant would like to work (if possible, please give names of two or three Fellows in order of interest) and the tentative dates of the visit as convenient for the applicant. Student applicants should include a recommendation letter from a teacher familiar with their work, in a sealed envelope.

Completed proposals should reach the Academy office (The Executive Secretary, Indian Academy of Sciences, C.V. Raman Avenue, Post Box No. 8005, Sadashivanagar P.O., Bangalore 560 080) by 10 February 2001. Information of selection along with concurrence of the Fellow will be despatched by 10 March 2001. As far as possible the preferences expressed by the applicant will be followed in assigning him/her to a Fellow.

The selected students/teachers will be provided appropriate round trip train fare and an honorarium to meet the boarding and lodging expenses at the place of work.

9 December 2000

Professor N. Mukunda
Chairman, Education Panel
