

Society for Environmental Communications

is looking for a

Managing Editor

for *Down To Earth*

Down To Earth is India's premier newsmagazine on Science and Environment issues. Its key role is to inform and inspire. It presents its readers with researched reports on the state of the changing environment and its impact on India's economic and social development, presents technical and institutional solutions for the emerging environmental problems both at the national and global level, and inspires readers with reports on outstanding efforts to bring about change.

If you are an eclectic scientist or social scientist who keeps abreast of latest developments, a proven track record in managing research teams, some fire in your belly, then you are just the kind of person we are looking for. A minimum of at least 10 years working experience will be required.

The total emoluments of the candidate will depend on experience and qualifications but will at least be equivalent to that of a professor in an Indian Institute of Technology.

Please send your applications to:

Ms. Jagdeep Gupta, Coordinator

Programme Management and Recruitment

Centre for Science and Environment

41, Tughlakabad Institutional Area, New Delhi-110062

Centre for Science and Environment

is looking for a

Director of Programmes

to manage teams working on policy research, awareness raising and advocacy on different areas of

Environmental and Natural Resource Management

CSE is one of India's leading environmental NGOs. Its key role is to document the state of the changing environment and its impact on India's economic and social development, identify technical and institutional solutions for the emerging problems, and undertake advocacy and network with civil society institutions to promote those solutions.

If you are an eclectic scientist or social scientist with a deep interest in current affairs, a proven track record in managing research and advocacy teams, anger at the current state of affairs and some fire in your belly, then you are just the kind of person we are looking for. A minimum of at least 15-20 years working experience will be required. Even retired people can apply.

The total emoluments of the candidate will depend on experience and qualification but will at least be equivalent to that of a professor in Indian Institute of Technology.

Please send your applications to:
