

SPIC Science Foundation

Needs

Assistant Director/Deputy Director

Centre for Biotechnology

SPIC Science Foundation, an autonomous non-profit research organization with nearly 100 personnel including over 20 Ph.D.s supported by Chemical Engineers, Master's level scientists and technologists. With the state-of-the-art facilities for R&D in Biotechnology, Natural Products Chemistry and Energy, the Foundation is a leading institution in India for higher learning and research.

The position of Assistant Director/Deputy Director involves responsibilities of research, leaderships and management, including sourcing of external funding. He/she will have minimum 10 years of research experience after Ph.D., in medical/pharmaceutical biotechnology research and will head a team to organize research leading to IPR/product generation in healthcare. Overseas post-doctoral experience and good publications are a must. Familiarity with commercial R&D, expertise in high expression recombinant proteins in microbial, mammalian or plant systems is essential. Attractive salary, perks commensurate with experience and expertise.

Centre for Energy invites applications from candidates with M.Sc. in Physics/Chemistry/Materials Science, preferably with 2 years research experience, for the position of JRF to work in a project funded by Board of Research in Nuclear Sciences (BRNS), in the area of Hydrogen sensors.

Applications are also invited from candidates with M.Sc. in Physics/Chemistry, preferably with 2 years research experience, B.Tech. in Chemical/Mechanical Engineering with research aptitude, for the position of JRF/SRF to work in a project in the area of fuel cells.

The applications may be forwarded with curriculum vitae to:
