IndOcean has been developed considering the requirements of researchers working on Indian Ocean and adjacent waters. This product on CD hold many unique records (of abstracts) making it an important source of information. As of now, the earliest reference is of the year 1836. There are over 25,000 records on the first release of CD comprising scientific literature on Marine Biology (9400), Marine Ecology (6700), Marine Fisheries (3700), Physical Oceanography & Marine Meteorology (4200), Chemical Oceanography and Pollution (2900), Marine Geology and Geophysics (3500) and on other (interdisciplinary) areas. You can search, display and copy/print with user-friendly IndOcean Retrieval Software. Yearly updates are planned.

IndOcean is backed with the availability of the full text of each reference at the National Information Centre for Marine Sciences (NICMAS).

NICMAS - a *nicmas* centre
