

Tea Research Association

Applications are invited for the following post at **Tocklai Experimental Station, Jorhat:**

1. **Botanist** – Ph D within 10 years research guiding experience in the field of genetics and plant breeding, molecular biology and advanced biotechnology supported by publications. *Age:* 45 years, *Grade:* Rs 16,450–20,000.

Higher scale and designation can be offered to the deserving candidate.

2. **Assistant Advisory Officer** – Post Graduate degree in Botany/Soil Science/ Horticulture and practical experience/training in tea cultivation. *Age:* 35 years, *Grade:* 10,000–325–15,200.

Qualification can be relaxed in case of deserving candidates.

Present DA is 45%. Besides, furnished accommodation is provided. Interested persons may send complete CV to the Secretary, Tea Research Association, 113 Park Street, 9th Floor, Kolkata 700 016 in confidence within 10 days.

American biotechnology company seeks to license human monoclonal antibodies directed against infectious agents affecting skin or mucosal surfaces. Preferable targets: rotavirus, human papilloma virus, Staphylococcus aureus, Chlamydia pneumoniae, Haemophilus influenzae. Others will be considered, especially if directed against microbes affecting large human populations. We are also interested in licensing novel microbial antigens with a clearly defined function in pathology and novel methods for selecting useful human anti-microbial monoclonal antibodies. Well-defined ownership of antibodies is required and preliminary clinical safety/efficacy data are desirable. Send one page description of your research by e-mail to: maristan@msn.com.
