Call for Research Proposals on Nanobiotechnology

The Department of Biotechnology (DBT) invites research proposals from the scientists working in Research Institutions and Universities in areas related to Nanobiotechnology.

Multicentric/multiinvestigator proposals will be preferred, with a strong component of collaboration between research groups. Proposals are invited in the following areas which are broadly indicative:

- Nanoparticles for diagnostic/therapeutic use
- Biosynthesis of nanoparticles
- Biological templates for nanoparticle assembly
- Bionano composites
- Imaging/sensing of nanoparticles/biomolecules
- Tissue engineering
- Cell–cell interactions
- Mammalian/microbial cell development.

The scientists with necessary expertise in Genomics may submit 25 copies of project proposals in DBT format (available at DBT websites http://www.dbtindia.org or http://www.dbtindia.nic.in). The project proposals may be sent to Dr Arvind Duggal, Director, Department of Biotechnology, Block No. 2 (8th Floor), CGO Complex, Lodi Road, New Delhi 110 003. Proposals received by 31 January 2003 will be considered for the first round of funding.
