ACKNOWLEDGEMENTS. N.R.K. thanks the Head, Department of Geology, University of Pune, for permission to collaborate with GEMOC Macquarie University, Sydney, Australia. We thank Prof. W. L. Griffin and Prof. Suzanne O'Reilly for collaboration as well as for discussions. We are also grateful to Miss Carol Lawson and Dr Norm Pearson for help in the microprobe analysis and Ashwini Sharma for help in the ICPMS microprobe analysis. We thank Dr Mark Norman and the postdoctoral fellows at the Center for fruitful discussions. Review comments from the anonymous referee(s) helped to improve the manuscript.
