

‘Unique & comprehensive source of information of S&T research in India’

A database of Intramural R&D projects has been developed by NISCAIR under the sponsorship of Department of Science and Technology (DST), Govt. of India. The database is now available on CD-ROM and will be accessible online on national network. The database provides information on nearly 8000 R&D projects in S&T institutions of central & state governments, private & public sector undertakings and academic institutions covering disciplines ranging from pure sciences to applied sciences.

Salient features

- A unique source of R&D projects taken up by the S&T institutions during the 9th plan (1997–2001) period which provides comprehensive view of the S&T research in the country.
- Available on CD-ROM with Windows-based graphic user interface and user friendly software searchable by various parameters such as institution name, project title, subject, class no., keyword, investigator's name and has provision for generation of various statistical reports on various parameters.
- The database is an excellent electronic searchable tool for information on R&D projects in India.

NISCAIR has now been assigned the responsibility of updation of this database which involves:

Collection of details of ongoing as well as new intramural R&D projects taken up from 1 April 2001 onwards and

Collection of details of recently completed (during the period 1997–2001) intramural R&D projects
