

EKLAVYA

Institute for Educational Research and Innovative Action

- Are you looking for an opportunity to do something about the present-day education system?
- Are you interested in teaching children and training teachers?
- Are you interested in exploring curricular issues at the school level?
- Are you interested in testing ideas, materials and exploring children's responses?
- Do you have a flair for communicating, writing, editing, documenting and researching?
- Are you looking for something very different in your mid-career?

If you are, we at Eklavya would like you to work with us.

Eklavya is an NGO (registered as a society in 1982) working in the field of school curriculum, school development, teacher training, development of teaching-learning materials as well as production and sale of educational publications. We also foster the setting up of forums for children and youth to explore various paths of education outside the school system. We are based in Madhya Pradesh, but actively support efforts and initiatives of NGOs and state organizations in different parts of the country. Our field area is spread across central and western Madhya Pradesh – around Bhopal, Hoshangabad, Harda, Pipariya, Shahpur, Dewas, Indore and Ujjain.

We require personnel for

- Science publications for students and teachers
- Curriculum and material development in science and mathematics for school students and teachers
- Research studies in science and mathematics education

Please get in touch with us if

- You are an M.Phil. or Ph.D. in science or mathematics
- You are an M.Sc. with some years of working experience in research projects, etc
- You are interested in a wide range of science subjects
- You are fluent in English, with a working knowledge of Hindi
- You have the ability to achieve a high level of quality in your work
- You can contribute with creative and original ideas
- You have initiative and can handle responsibility independently

Please send us

- Your biodata
- Up to three published articles/papers
- A write-up on any science/mathematics topic of your interest
- Anything else of relevance to the above

You can expect a salary in the range of Rs 8000 to Rs 14,000 pm.

The last date for submission of applications is **25 February 2005**
