

SERC School On
Concepts in Quaternary Geology

27 March – 16 April 2005
Indian Institute of Technology Kanpur

Applications are invited for the SERC school on “**Concepts in Quaternary Geology**” as a part of the five year programme on “**Crustal Deformation and Tectonic Geomorphology**” sponsored by the Department of Science and Technology, Government of India. The present school will focus on three major modules: Quaternary geomorphology, Quaternary stratigraphy and Quaternary climates. Apart from this, a number of special topics related to Quaternary Geology would be covered during the school and including field/laboratory training. Interested persons should send their nominations through proper channel including their detailed biodata highlighting their current research activities and publications. The last date for receiving the nominations is **10 February 2005**. Selected candidates would be informed by 20 February 2005. The participants would be reimbursed their travel expenses and receive full hospitality at IIT Kanpur during the period of the school. For further details contact: Dr Rajiv Sinha, Engineering Geosciences Group, Department of Civil Engineering, IIT Kanpur 208 016 (rsinha@iitk.ac.in).
