

**KMC life SCIENCE CENTRE Invites
Faculties/SCIENTISTS**

INFECTIOUS DISEASES, AGING, GENETICS AND LASER SPECTROSCOPY

KMC Science Centre has the state-of-the-art facilities for high quality research especially in the area of aging, cancer, infectious disease and molecular and cellular biology. Flinders and Queensland Universities of Australia have already recognized this Centre and have tied up for twinning programme in Biotechnology and other areas of research. The collaborations with University of Minnesota and Lancaster (United Kingdom) are also in the acquiescence. It also conducts courses in Biotechnology (both B.Sc. and M.Sc.) and M.Sc. Medical Molecular Biology. We are looking for faculties who are eager to expand their horizon of research in the above areas to lead, guide and work in collaboration with other departments.

Applicants who have completed M.D. and/or Ph.D. with at least three to five years of post-doctoral experience/research experience in the relevant area may apply along with their curriculum vitae, outline of future research plans and three letters of reference.

Perks: Very attractive with many additional facilities and flexibility based on research experience and achievements. Research incentives are more outstanding.

Application with CV may be sent by e-mail/post within 15 days to the **Registrar**.
