

CSIR

Invites you to help it Accomplish its Challenging Mission to Provide Scientific Industrial Research and Development that Maximises the Economic, Environmental and Societal Benefit for the People of India in its Coveted Top Management Position as Director, Industrial Toxicology Research Centre (ITRC), Lucknow

Council of Scientific and Industrial Research (CSIR) is a result-oriented network of 38 laboratories and nearly 50 field/extension centres spread throughout the country, manned by around 5100 scientists, many of whom are nationally and internationally acclaimed, working in an impressive, state-of-the-art infrastructure. The S&T activities of CSIR cover a wide spectrum of science and technology ranging from aeronautics to oceanography. CSIR is also known for spearheading the IPR movement in India. (For details, please see CSIR website: www.csir.res.in)

The major R&D activities of ITRC are in the areas of health risk assessment, preventive toxicology, predictive toxicology, environmental toxicology, inhalation toxicology and analytical toxicology. ITRC also imparts training in the areas of water quality assessment.

ITRC is located in Lucknow. It has staff strength of around 350 of which 30% are qualified scientists. Its annual budget is around Rs 1000 lakh.

Qualifications: Ph.D. (Science) with 16 years of experience or Ph.D. (Chemical Engg) with 15 years of experience in the relevant S&T areas of R&D of the Institute.

Candidate: Should be creative, innovative and a well-established scientist/technologist having a demonstrated ability to create an environment conducive to nurturing of high-class research and development. Age preferably around 50 years.

Responsibilities: The Director as the Chief Executive of the Institute is inter alia responsible for developing and managing a perspective plan for the Institute; providing scientific leadership to the diverse R&D groups; management of day-to-day operations including human resource management; promoting inter-laboratory and inter-agency R&D programmes and missions; negotiating and acquiring R&D grants/contracts; and building linkages with stakeholders and users.

Appointment: On contract for a period of 6 years or up to superannuation at the age of 60 years whichever is earlier in the pay scale of Rs 18,400–500–22,400/ Rs 22,400–525–24,500 (depending on the individual's merit) plus allowances as admissible. The provision to share the money realized from external contract R&D, consultancy and rendering of S&T services is also available as per rules. Residential accommodation is provided on charges as per rules.
