

## Two Indian journals cross impact factor 1.00 in 2004

Among the 47 Indian journals covered in the *Journal Citation Reports 2004*, two journals, namely *Journal of Biosciences* and *Journal of Genetics* have impact factor (IF) of 1.102 and 1.100 respectively (Table 1)<sup>1</sup>. *Current Science* with impact factor 0.688 ranks third among Indian journals, followed by *National Medical Journal of India* (0.626) and *Indian Journal of*

*Medical Research* (0.600). This is indeed an encouraging trend, as for the first time two Indian journals have crossed IF of 1.000. One hopes that more Indian journals will cross this magic figure of 1.000 in future. A total of 5968 journals have been covered in the *JCR 2004*, with *Annual Review of Immunology* having the highest IF of 52.431.

1. *Journal Citation Reports 2004*, Science Edition (CD-ROM), Thomson, Philadelphia, 2005.
