Thrombosis Research Institute (TRI), India

Applications are invited for the following

**Director of Research; Heads of the Departments of Molecular Immunology; Functional Genomics, Proteomics/Coagulation, Biostatistics/Bioinformatics; 2 Clinical Research Fellows and PA to the Director**

TRI-India is a multi-disciplinary ‘free standing’ organization, established in Bangalore in October 2003 in association with Narayana Hrudayalaya, a multispeciality hospital.

TRI-India is a sister organization to TRI-London, pursuing integrated clinical and basic research in Atherothrombosis. The current and rapidly progressing research programs at both the Institutes is devoted to research in molecular cardiology spanning the development of innovative therapy, namely atherovaccine and genetic epidemiology in coronary artery disease, with state of the art facilities in Genomics, Proteomics and Molecular Immunology.

**Director of Research:** Would be responsible to develop and co-ordinate the activities of the various research teams under the overall guidance of the Chairman. The successful candidate should have at least 10 years experience of working at senior level in research and development, possess enthusiasm, initiative and good organizational skills.

**Heads of Departments of Molecular Immunology, Functional Genomics, Proteomics/Coagulation, Genetic epidemiology Biostatistics/Bioinformatics:** The successful candidate should be able to lead a team of scientists and have at least 5 years postdoctoral/teaching experience in their relevant fields and publications in peer review journals; also previous experience of analysis of genetic epidemiology. They will also be considered for granting of academic status (Professor, Assistant Professor or Senior Lecturer).

**PA to the Director:** The successful candidate should have been involved in a similar role with a proven track record.

For detailed job description, please visit the website at [www.tri-london.ac.uk](http://www.tri-london.ac.uk) Salaries will be commensurate with qualifications and experience, but not less than Rs 60,000 per month – Director of Research*; Rs 45,000 – Section Heads*; Rs 20,000 – Clinical Research Fellows; and Rs 15,000 – PA to Director.

*Additionally House allowance, conveyance allowance and family insurance will be provided.

These posts will be for three years initially to be renewed thereafter. Successful candidates will have an opportunity to be involved in the initial training in research activities if required, in London. During this period, a London living allowance will be provided, together with return economy airfare. Please send full CV, a statement of research goals and the names of three referees to: cv@tri-london.ac.uk

**The closing date for applications is 10 February 2006**
