The Jawaharlal Nehru Institute of Advanced Study is a new initiative of the Jawaharlal Nehru University, envisaged both as a self-contained site of scholarly pursuits in an environment of intellectual fellowship, and as a source of academic enrichment for the university community. The JNIAS is intended to evolve as an intellectual community, a fraternity of scholars who despite their diverse disciplinary backgrounds are able to engage in an intellectual conversation that enriches them and benefits the Institute as well as the wider university community. The academic programmes of the JNIAS are intended to be borderless both across disciplines as well as nations and peoples.

The JNIAS invites applications for fellowships for periods ranging from 3-6 months. Applicants should hold a doctoral degree in the natural sciences or social sciences, and have a proven record of quality research in their field, with publications in refereed journals. The application must contain (a) a fully-updated Curriculum Vitae (b) a one-page statement about the proposed research/writing plan for the fellowship, and why the JNIAS is an appropriate location for this work and (c) the names, addresses and e-mail addresses of two referees. The application must be sent both electronically to jniас@mail.jnu.ac.in and also in hard copy to The Director, Jawaharlal Nehru Institute of Advanced Study, Jawaharlal Nehru University, New Delhi-110 067.

While Fellowship applications are welcome from all disciplines, the JNIAS particularly welcomes applications in the following areas of research: Legal Reform in Transitional Societies; Issues in Law, Society and Constitutionalism; Texts and Textuality; Interrogating the Global; and the Ethics of Biological Research.

The Fellowship carries a modest stipend and accommodation in a studio apartment. In special cases, economy class airfare can also be considered.
