Today’s user expects to get information when they need it and fast. The majority of respondents were attracted to benefits from Books on ScienceDirect because of ease of use. User expectations and busy workloads demand immediate access to content they need.

“The benefits of Books on ScienceDirect as opposed to printed versions is that they are faster, easier and have more flexible access for users. It’s easier to search and identify relevant content.” Susanne Doufang, Electronic Resource Librarian, Murdoch University, Perth, Australia

Immediate access to a vast amount of book content that the clothe of searching is streamlined, giving users time to focus on the broader research and analysis. Many respondents find the facility to search and link across different content types, a crucial tool that can be a help in the task of solving their research problems.
