Biotechnology at SCMS-COCHIN

Got a passion for research in your RNA?

Winning edge programmes (2 year)
- PG Diploma in Molecular Biology
- PG Diploma in Biomaterials & Tissue Engineering

Competency development programmes (1 year)
- Diploma in Computational Genomics & Proteomics
- Diploma in Tools & Techniques in Molecular Biology

The future belongs to biotechnology. And your future depends on doing the winning edge course at the right institute – one that has a strong commitment to research, innovation and new bio-product launches.

A centre for high-end research in Genomics & Proteomics, SCMS Institute of Bioscience and Biotech Research & Development (SIBB-R&D) is a division of the reputed SCMS GROUP- COCHIN. It also offers cutting edge courses and professional training at the tertiary level – for university/college faculty, scholars and students.

With reputed research scientists and precision scientific instruments imported from abroad, it is the right place to imbibe the concepts and advanced level of biotech expertise. The precision scientific instruments include Real Time PCR, generator and sequencer imported from Germany, UK, France and USA. Investment on these equipments alone is more than Rs.210 lakhs.

Eligibility:
Graduation in Biotechnology, Biotech Engineering, Bioinformatics, Medicine, Biophysics, Biochemistry, Microbiology or related sciences with 60% marks in the aggregate.

For application and prospectus:
Send a DD for Rs.750 in favour of SIBB-R&D to Admissions Officer, SCMS Institute of Bioscience and Biotech Research & Development (SIBB-R&D), S.Kalamassery, Cochin-682033. Phone: 0484-2556315/2558502 Fax: 2540482 Email: directorsbb@scomsgroup.org Apply within two weeks from the date of this announcement.
