

Communication Skills for Scientists Hyderabad 30–31 August 2007

Workshop objective: The workshop seeks to facilitate peer-to-peer communication among researchers through both the printed word and verbal presentations. The course contents are designed to help researchers publish the results of their research in international peer-reviewed journals and present such results at conferences.

Trainer: The lead trainer has been active in science publishing for nearly 20 years, a career switch he made after working as a scientist for a decade.
