Indo-French Postdoctoral Research Position

A Postdoctoral position is open in the field of Molecular Microbiology in the Microbiology, Adaptation and Pathogenicity (MAP) Lab, Villeurbanne, France. MAP is a lab associated with CNRS (UMR CNRS 5240) and INSA Lyon.

The research project entitled ‘Characterization of metal responsive genes from bacteria’ deals with the identification of metal resistance genes from Pseudomonas through proteomics analysis.

Qualification of the candidate
The candidate must have a strong background in microbial physiology and molecular microbiology. A relevant experience in the field of proteomics (2D gels, data analysis, bioinformatics) will be greatly appreciated. It is mandatory that the candidate possesses good communication skills and scientific reporting skills.

Fellowship and application
The postdoctoral position is open within the framework of a collaborative project between MAP, France and Osmania University, Hyderabad, India and funded by the Indo-French Centre for the Promotion of Advanced Research (IFCPAR). The fellowship is 1850 Euros per month for two years. The candidate is expected to join MAP, Villeurbanne in France by the first trimester of 2008. The candidate must be an Indian citizen and will report to Dr A. Rodrigue, MAP. Interested candidates should send their CV, motivation letter and three recommendation letters (all in English) to Dr A. Rodrigue, France (agnes.rodrigue@insa-lyon.fr) or to Prof. P. Maruthi Mohan, Principal Collaborator, Department of Biochemistry, Osmania University, Hyderabad 500 007 (A.P.) before 15 December 2007.
