Gain access to hundreds of journals from Volume 1, Issue 1 to the present day. Fully searchable and link-enabled, Wiley InterScience® Backfile Collections and Blackwell Journal Backfiles restore a crucial connection with historical material. Releasing researchers from the limitations of partial perspectives, our backfile collections are integrated with current web-based content and offer the same flexible retrieval and printing capabilities.

Backfile Collections on Wiley InterScience® can be purchased in subject collections for a one-time fee. The collections are organised in 33 tightly defined subject collections with no overlap among journals. The Blackwell backfile digitization program began in January 2006. The aggregate archive will include titles in multiple disciplines covering Science, Medicine, Technology, Humanities & Social Science.
