Leslie Coleman Memorial
**National Symposium on Plant Protection**
4–6 December 2008
University of Agricultural Sciences, GKVK, Bangalore 560 065

University Agricultural Sciences, Bangalore (UAS-B) and University Agricultural Sciences, Dharwad (UAS-D) are jointly organizing a National Symposium on Plant Protection to commemorate the establishment of Divisions of Entomology and Mycology by Dr Leslie C. Coleman in 1908, under the Department of Agriculture, in the then princely state of Mysore.

The symposium will be held at the University of Agricultural Sciences, GKVK, Bangalore. The symposium which will have lead talks by invited speakers and poster presentations by participants is expected to cover the following themes in plant protection:

- Systematics and biodiversity of insects and plant pathogens
- Invasive pests and diseases and plant quarantine
- Pest and disease management for food security
- Insect pollination and seed production
- Role of social insects in agro-ecosystems
- Pest and disease management in organic farming systems
- ITK in plant protection
- Insect resources for human welfare

- Biotechnology in plant protection
- Climate change: potential challenges for IPM
- Classical host-plant resistance
- Biological control of pests and diseases
- Resistant insect and pathogen management
- Role of pesticides and their safe use in IPM
- Plant protection in protected cultivation and house-hold pests
- Education and training needs in plant protection

The deadline for submission of abstracts (600 words) and registration is **31 August 2008**. The detailed brochure and registration forms can be downloaded from [www.uasbangalore.edu.in](http://www.uasbangalore.edu.in) or received by sending a request to colemansymposium@gmail.com
