A training programme on '**Physiological and molecular basis of plant adaptations to drought**' is being organized by the Department of Crop Physiology, UAS, Bangalore with financial assistance from the Niche Area of Excellence project of the ICAR. This training course is primarily designed for teachers and active research workers and will be for a duration of three weeks from 02 March 2009 to 20 March 2009. The main objective of the programme is to give a general exposure on plant responses to moisture stress and provide hands-on training to address stress responses at whole plant level, stress transcriptome analysis, evaluation of transgenics and molecular breeding. Teachers/scientists, who wish to participate in the training programme, may submit their brief curriculum vitae (including name, date of birth, sex, educational qualifications, experience, position held, postal, e-mail address and phone number, etc.) with a brief write-up on the need for the training programme through proper channel. Preference will be given to persons below 45 years of age. Research fellows are also encouraged to apply. The applications may be sent to the following address on or before **1 February 2009**. The successful candidates will be informed on the 10 February 2009.
