SERC School on Crustal Deformation and Tectonic Geomorphology

Announces the Fifth School in Climate and Tectonics
(Sponsored by Department of Science and Technology, Govt of India,
Earth Systems Science, New Delhi)

We propose to conduct a fortnight training programme on Climate and Tectonics from 27 May 2009 to 10 June 2009 at the Sikkim Manipal Institute of Technology, Majitar, Rangpo. The primary aim of this course is to provide participants with the concepts of crustal deformation, in general, with special reference to the climate and tectonics through intensive classroom (five days) and field training (10 days). Faculty will consist of experts from India.

Postgraduate and research students and young teachers (preferably in earth sciences) may apply on plain paper with their curriculum vitae and full contact address including e-mail, fax, nature of research work and/or teaching being undertaken. Also add a write-up (about 200 words) stating, why they would like to participate in this School, their expectations from the School, how this training will benefit their ongoing research or teaching, and a letter of support by concerned supervisor/head of the department. The application material should reach us on or before **10 April 2009**. The selected participants will be provided III AC fare, lodging, and boarding during the training at Sikkim Manipal Institute of Technology, Majitar, Rangpo, Sikkim. The participants who have attended earlier SERC Schools are encouraged to apply. Please send your completed applications by e-mail to dstserc2009@gmail.com or by post to **Dr Senthil Kumar**, Course Director, Centre for Earth Sciences, Indian Institute of Science, Bangalore 560 012, India.
