Winter School on Chemistry and Physics of Materials – 2009
(30 November–5 December 2009)

Organized by
International Centre for Materials Science (ICMS), JNCASR

The Winter School on Chemistry and Physics of Materials is jointly organized by International Centre for Materials Science (ICMS), JNCASR, Bangalore and Cambridge University, UK and supported by M/S. Unilever, Bangalore. The aim of the school is to introduce the research scholars, post-doctoral fellows and the young faculty members from various institutions worldwide, especially from the neighbouring countries, to the diverse aspects of the chemistry and physics of materials and their applications.

Some of the areas to be covered are: (i) Properties of new carbon based materials and bio-materials, (ii) Solid state lighting and photovoltaics, (iii) Magneto-electronics and magneto-optics, (iv) Superconductivity and magnetism, (v) Theory and simulation.

Applications are open from **15 June 2009**.

For application and information refer <http://www.jncasr.ac.in/winterschool>

Government of India

DEPARTMENT OF SCIENCE and TECHNOLOGY (DST)
INTERNATIONAL DIVISION

INDO-HUNGARIAN STRATEGIC RESEARCH FUND

CALL FOR JOINT RESEARCH PROPOSALS

Proposals are invited from Scientists and Faculty of R&D and academic institutions for joint support by Department of Science and Technology (DST) of India and National Office of Science and Technology (NKTH) Hungary for collaborative research project (individual and Institutional Network) for support under above mentioned **Indo-Hungarian Strategic Research Fund**. The programme lays special emphasis on research activities among scientists in frontier areas of S&T. The projects selected for support under the call will commence from 1 May 2010.

Details of the programme, including guidelines and applications format may be downloaded from internet website: www.dst.gov.in under 'what's new' section.

The last date for receipt of completed applications in DST, New Delhi and NKTH, Budapest is **30 October 2009**.
