

79th Annual Meeting of the Society of Biological Chemists (India)

Regulation of Biochemical and Cellular Processes in Diverse Systems

13–15 December 2010 | Indian Institute of Science Campus, Bangalore

The 79th meeting of the Society of Biological Chemists (India) will be held under the lush green canopy of the Indian Institute of Science (IISc) campus. This meeting will focus on the integration of biochemical and cellular processes in different organisms, from *E. coli* to *C. elegans* to *H. sapiens*. We have invited speakers from all over the country and the talks will represent cutting edge research in biological sciences! There will be several presentations on a plethora of topics: DNA and chromosome dynamics, Regulation of transcription, Proteins: structure and function, Molecular microbiology, Cellular responses and signalling, Cellular differentiation, Pathogens and disease, Immune responses, Mechanisms of cell death, Neurobiology, Systems biology, etc. Students and researchers are strongly encouraged to register for this annual celebration of excellent research in biology in India. We look forward to your active participation in making the 79th SBC(I) meeting a resounding success!
