

IBAB is offering a Postgraduate Diploma in Bioinformatics through modular framework under the aegis of the Department of Information Technology, Ministry of Communications and Information Technology, Government of India.

Highlights of modular courses:

- Provide a unique opportunity to acquire/enhance proficiency in bioinformatics which is sometimes not possible through traditional rigid courses.
- Offer a flexible course schedule.
- Choice for what one wishes to learn and enhance capabilities, eventually leading to the completion of the course at a pace convenient to the participants.
- A Postgraduate Diploma is awarded to those who complete all the modules.
- Teaching by core IBAB faculty and also distinguished guest faculty from academia and industry, both national and international.

The institute invites industry professionals, academic scientists and students to join this course to enhance their proficiency in the fast developing areas of bioinformatics, chemoinformatics, molecular biology and related subjects.

Modules: For details, please keep an eye on the IBAB website and be in touch with pg@ibab.ac.in
