

### **We are hiring for the posts of post-doctoral scientists – 3 posts**

Sri Shankara National Centre for Cancer Prevention and Research (SSNCCPR) invites application for the above post of **post-doctoral scientists** with at least 3 years of experience. The applicants are expected to collaborate with clinicians in conducting research in the field of oral cancer, ovarian cancer and lung cancer. Candidates with expertise in the cancer research connected to the aforementioned diseases are preferred. Fifty-two (52) research projects are currently being carried out at this Cancer Research Institute, which is a functioning and well-equipped institution; it includes all the tools necessary such as mass spectrometry, sanger-sequencer, and Next Generation Sequencing.
